RENNERBROWN

Our
Business
IS IT

Our focus is the
process, people & technology
that make IT happen.

RennerBrown: Your Trusted IT Consulting Resource

With corporate performance and end-user productivity so heavily dependent on servers and desktops, IT departments are under tremendous pressure to accomplish more with existing or reduced staff. To keep these increasingly complex systems operational, IT professionals need effective management tools.

- ■ ■ Enter RennerBrown. Begun as an IT staffing company, RennerBrown has evolved into a full-service firm helping companies boost their IT productivity in two key areas:

Process Solutions

As an independent technology expert, we can evaluate your company's needs, recommend sound solutions and best practices, and implement the changes throughout your entire organization. And all the while, you can trust us to respect your company's unique characteristics, proprietary technologies and special requirements.

People Solutions

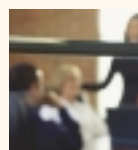

True to our roots, we maintain a rich network of IT professionals. So when your organization needs IT staff on a temporary, temporary-to-permanent, and permanent basis, we are there for you.

Bottom line: We can recognize and solve any IT issue your company may have, and can even provide the staff needed to get it done. Moreover, our services can scale to organizations of all sizes, on a national or international level.

A Partnership That Equates to Success for Your Business

RennerBrown has partnered with LANDesk to become a LANDesk Expert Solution Provider (ESP). This relationship provides RennerBrown access to information and product roadmaps enabling us to provide your company with unequalled value in your effort to maximize your technology ROI through:

RennerBrown & LANDesk:

Personal Account Management

- With your RennerBrown representative serving as your main point of contact, your company receives our utmost attention throughout the entire engagement. This way, you are ensured that the service you receive is tailored to the specific needs of your organization.

A Wealth of IT Resources

- In addition to our own rich intellectual resources, we now have the ability to tap into the extensive LANDesk community of ESPs and users, or even LANDesk engineering teams, if necessary, to bring resolution to complicated issues.

A Proven Support Model

- In addition to the long-standing commitment to partnership and follow-up that has become the hallmark of RennerBrown, we adhere to LANDesk's proven system of support. Based on years of testing and experience, this has proven to be the most thorough and effective method of supporting LANDesk software.

LANDesk: The Gold Standard in Systems Management Solution

Since helping define the market more than a decade ago, LANDesk Software's award-winning products have earned a reputation for effectiveness in helping IT professionals to more efficiently manage their evolving desktop, server and mobile device environments.

By exploiting the natural connectivity of company LANs, WANs, WLANs and the Internet, LANDesk Software enables companies to securely manage their systems wherever they are physically located. This means faster time-to-result.

With LANDesk Software, IT professionals can work more efficiently and accomplish much more in less time, allowing for fast, easy, automated:

- Hardware and software inventory and asset management
- OS and application deployment and migration
- Help desk problem resolution and remote-control tools
- Software license metering and monitoring

With our commitment to service along with LANDesk's reputation for excellence, now, more than ever, RennerBrown can deliver the process, people and technology that make IT happen.
